TRANSPAK TP-702CQ3-S

Corrugated Strapper, Squaring & Back Stop Machine

Description:

The TRANSPAK TP-702CQ3-S is a high-speed, all-electric corrugated strapper with integrated squaring and backstop functions. It is designed for precision bundling and seamless compatibility with Flexo Folder Gluers and Casemakers. This machine ensures reliable, efficient, and automated operations, meeting the demands of modern packaging lines.

Features:

1. **Compact and Durable Strapping Head:** Ensures high-speed and long-lasting performance.
2. **3-Side Squaring Control:** Provides precise bundle positioning and handling.
3. **Siemens PLC and HMI (Touch Panel):** Offers intuitive control and seamless integration.
4. **Automatic Bundle Size Setup:** Streamlines operations for enhanced efficiency.
5. **Free Access to Strap Guides:** Patent-registered feature for easy maintenance and adjustment.

Key Product Benefits:

1. **High-Speed Performance:** Optimized for high-volume packaging environments.
2. **Accurate and Reliable Bundling:** Advanced features ensure precise strapping for corrugated bundles.
3. **Streamlined Workflow:** Reduces manual intervention with automated functions, boosting productivity.

Specifications	
Arch Size	1650 mm (W) x 450 mm (H)
Capacity	Up to 26 bundles/minute (single strap)
Capacity (Double Straps)	Up to 13 bundles/minute
Strap Width	5 mm, 6 mm, or 9 mm
Tension Range	1 - 32 kg
Electrical Requirements	220V, 380V, 400V, 415V 50/60Hz 3PH
Item Number	41202170

Applications:

The TRANSPAK TP-702CQ3-S is ideal for high-volume packaging environments in corrugated carton manufacturing and distribution centers. Its advanced features ensure secure bundling, optimized workflow, and reduced manual effort. Fully compatible with Flexo Folder Gluers and Casemakers, it delivers reliability and efficiency in high-speed production lines.
