

TRANSPAK TP-702RSS MERCURY

Stainless Steel Automatic Strapping Machine

High-speed automatic strapping machine designed for demanding industrial environments.

The Transpak TP-702RSS Mercury is a high-speed automatic strapping machine featuring a stainless steel frame for reliable operation in damp and demanding environments. It is particularly suited for food, seafood, poultry, agricultural processing and other high-demand industrial applications.

Designed for efficient daily operation, the TP-702RSS provides speeds of up to **65 cycles per minute** and an adjustable tension range of **1–32 kg**. Waist-high automatic strap feeding and quick coil change simplify operation and maintenance.

Key Features

- Stainless steel frame
- Up to 65 strapping cycles per minute
- Robust and compact mechanical strapping head
- Free-access strap guides
- Waist-high quick coil change
- Waist-high automatic strap feeding
- Turnable operating control panel
- Automatic strap ejector
- Dispenser release switch
- Sensor-controlled heater
- Low-voltage system
- Strap-end ejector
- Front foot bar switch

Options

- Photo-eye switch
- Rear foot bar switch
- Foot pedal switch
- Lower adjustable table height: 770–820 mm
- Alternative electrical connections: 110V, 220V or 240V, 50/60Hz, 1PH

SPECIFICATIONS		
Model	TRANSPAK TP-702RSS MERCURY Stainless Steel Automatic Strapping Machine	
Strap Width	5mm	9mm
Capacity	Up to 65 cycles/minute	
Tension Range	1-32kg	
Weight	158kg	
Electrical Requirements	110V, 220V, 230V, 240V 50/60Hz 1PH	
Item Number	41190605-A55.40	41190609-A55.40
